# NOW HIRING!

## 30X AMSTERDAM IS HIRING!

### STORYTELLERS

Hi Designers! We are 30X strategic storytellers, based in Amsterdam since 2014. We are on a quest to make a difference: to make dreams and possibilities become reality. Startups and large companies all over the world need help with that – not only developing a clear strategy, but also in prototyping and testing ideas and making them really grow. Visual thinking and storytelling are our tools for the future. We have a background in business, ai, gaming, advertising, design thinking, art, and of course we do like parties.

### WE NEED YOU

We are growing as well, and we have a Job Opening in Amsterdam for an all-round visual designer/ visual storyteller. Are you passionate about startups, design, stories, and strategy, and want to help us change the world one story at a time, then this is your chance!
